GIVE THE Gift of Comfort

Everyone wants to be home for the holidays—and enjoy being there. Crossroads can help your terminally ill patients, and their families, experience less stress and enjoy more quality time. It will not only help them, it will help you too.

Top 3 reasons why hospice is good for the holidays.

1. Relieves physicians of total patient care during the holidays. We can be your patients' 'after hours, on-call source'. And, we'll keep you informed of developments as you request.
2. Helps prevent repeat emergency room visits, which reduces stress for the patient and family. It also helps you manage less 'frequent flyer' activity in the ER.
3. Provides services like bathing, dressing, light housekeeping, meal preparation and feedings, allowing the family to focus on holiday preparations.
